

There are two options available to print information from your Snap-on Modis, Solus Pro, Ethos, Vantage Pro and Solus diagnostic tools.

### Important – Read this 1st

- You can either:
- print directly from the diagnostic tool straight to a compatible printer (refer printer application listing next page)
  - using ShopStream Connect transfer the information to a PC and utilize the printer on the PC

**ShopStream  
CONNECT**

## Get Connected!

Go to [www.snapontools.com.au/diagnostics](http://www.snapontools.com.au/diagnostics)

Click on "download the software"

***ShopStream Connect is PC-based software that extends the capabilities of Snap-on hand held diagnostic tools***

- No Charge Download
- Compatible with Modis, Solus Pro, Vantage Pro, Ethos & Solus via USB
- Store, organize and playback scanner & scope movies
- Easy to print from your PC/Laptop

Technicians can use ShopStream Connect to transfer, save, manage, review, annotate, email and print files that were saved or recorded on their Snap-on diagnostic tool with Software Bundle 7.2 or higher, record up to 2,000 frame scanner movies or 230 frame movies on Ethos and open the saved files with ShopStream Connect

The software allows you to customize your view of this vital diagnostic information, including the ability to display up to 16 graphs onscreen at once and drag and drop parameters from the list to customize the display order

For Modis and Vantage Pro lab and ignition scope recordings, technicians have the ability to auto play, step through frames and pages, zoom and use cursors to help analyse their waveforms. They also have the option to display the grid and scales, inverse colours for printing and move each channel's vertical placement

- Exchange data bi-directionally between the handheld tool and the pc
- View handheld tool data files in a PC screen
- Add or edit notes and comments to saved handheld tool data files

Note this information for MODIS, SOLUS PRO & Vantage PRO was produced in USA but can be used as a guide for assisting in finding applicable printers available in Australia.

Links attached will take you to USA websites.

It is always recommended to test printer functionality before purchasing

## **Approved Printers for Snapon® MODIS™, SOLUS PRO™, Vantage PRO™**

**Specifications subject to change without notice.  
See manufacturer's website for current specifications and pricing.**
